

## 9. Dissolution and drug release

1. Standardization of "in vitro" method of biologically active substances release from suppositories and ointments / Grizodoub A.I., Kozlova N.G., Dranik L.I., Asmolova N.N., Georgievsky V.P., Kalman J. // Фармаком. - 1994. - № 12. - С. 4-20.
2. Grizodoub A.I., Kozlova N.G., Dranik L.I., Asmolova N.N., Georgievsky V.P. and Kalman J. Standardization of "in vitro" method of biologically active substances release from suppositories and ointments 1. Mathematical description of the release experimental curve // Вісник фармації. - 1995. - № 3-4. - С. 14-19.
3. Grizodoub A.I., Kozlova N.G., Dranik L.I., Asmolova N.N., Georgievsky V.P., Kalman J. Standardization of "in vitro" method of biologically active substances release from suppositories and ointments 2. Dependence of dissolution degree on preparation thickness. // Вісник фармації. - 1995. - № 3-4. - С. 20-23.
4. Grizodoub A.I., Kozlova N.G., Dranik L.I., Asmolova N.N., Georgievsky V.P. and Kalman J. Standardization of "in vitro" method of biologically active substances release from suppositories and ointments. 3. Standardized procedure of dissolution test // Вісник фармації. - 1997. - № 1 (15). - С. 6-8.
5. Gryzodub O., Leontiev D., Dmitrieva M. Ensuring of pharmacopoeial dissolution requirements to solid dosage forms with traditional release // Фармаком. - 2006. - № 4. - С. 39-50.
6. Gryzodub O.I., Gubarevich I.G., Nikishina L.Ye., Leontiev D.A., Akychev A.Sh., Glumenko Ye.N., Baumer V.N. Dependence of fensuccinal solubility on particle size // Фармаком. - 2008. - № 1. - С. 50-67.
7. Dmitrieva N.V., Leontiev D.A. Analysis of critical factors and standardization of dissolution procedures in accordance with SPU 1.2 requirements // Запорожский медицинский журнал. - 2008. - № 4(49). - С.103-107.
8. M.I. Borshchevska, O.I. Gryzodub, O.S. Remez, G.I. Borshchevskiy. Description of dissolution profiles in bioequivalence "in vitro" studies // Управління, економіка та забезпечення якості в фармації. - 2013. - № 4 (30). - С. 23-28.
